HOBBIES AND INTERESTS

Photography

Photography is the art of creating images by recording light with a camera. It can be a fun and rewarding hobby for people of all ages and skill levels. There are many different types of photography, so you can find a style that interests you, whether it's landscape, portrait, wildlife, or something else entirely.

Blockchain

Intrigued by the decentralized and secure nature of blockchain and its potential to revolutionize data management and transactions.

IoT

Fascinated by the interconnectedness of the Internet of Things (IoT) and its potential to reshape how we live, work, and interact with the world around us.

DevOps

Highly motivated by the collaborative spirit of DevOps and its power to bridge the gap between development and operations for efficient software delivery.

As a highly motivated BTech student with strong MERN stack skills, I'm eager to leverage my knowledge and contribute to a team focused on innovative web development. I'm available for an internship or junior developer position and welcome the opportunity to learn and grow within your organization.
